Transferearkene er 20 x 30 cm i størrelse, alle ark har samme målestoksforhold, det vil sige, at De kan sammenligne motivernes størrelse i forhold til hinanden eller motiver De kender.

Vejledning:
Det ønskede motiv klippes ud og lægges kort tid i lunken vand - til de er gennemvåde - tages op og hviler et øjeblikpå en flise eller lignende. Når de kan mærke at filmen med motivet har løsnet sig fra papiret - kan skubbes lidt frem og tilbage - tages papiret med motiv hen til porcelænet hvor det skal sidde, det er hensigtsmæssig at porcelænet er lidt fugtig - bare ens fugtige fingre lige har gledet hen over hvor det skal anbringes - filmen skubbes nu ud over papiret holdes fast på porcelænet og papiret trækkes væk. Motivet kan nu nemt skubbes til pladsen hvor De ønsker det anbragt.

Transferen gnides nu forsigtig fast med en blød klud eller en gummiskraber - dejskraber -, der gnides fra midten og ud mod siderne, se efter at der ikke er luftblærer under transferen, en luftblære vil bevirke, at farven ikke bliver afsat på porcelænet.

Når transferen er helt tør brændes emnet, lakhinden forsvinder, farven synker ned i glasuren og der er nu en færdig stregtegning klar til at blive dekoreret.

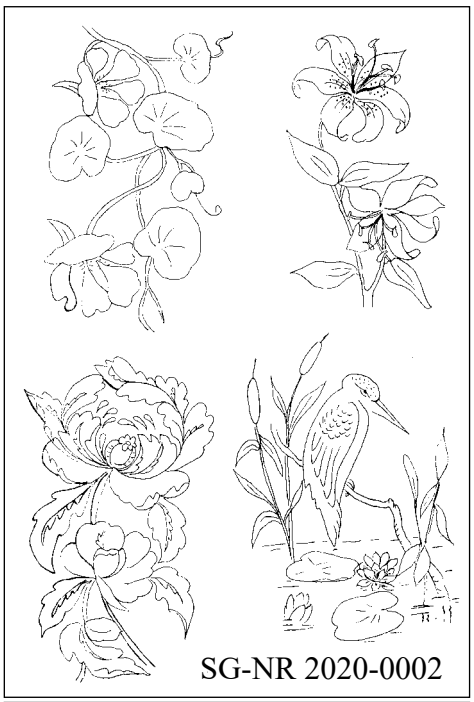

Som hovedregel er tegningerne trykt i en mørkegrå farve, japanmotiver, enkelte juletransfere er trykt i sort.
Urskiverne leveres i Polerguld, glansguld og sort, se gældende prisliste.

Vi ønsker Dem rigtig god fornøjelse,
med venlighilsen
SG-Trading

Stort udvalg i farver til porcelæn

SG-Nr 2020-0808

Ergonomiske pensler (fingre venlige)

De udmærker sig ved, at de har et 3-kantet skaft, lige der hvor man holder på skaftet, hvilket gør at det er meget nemmere at holde fast på penslen. De er produceret på en af de førende pensel fabrikker, så kvaliteten er hel i top. Er gode til at holde spidsen. Fåes både til vand og terpentin. Maler næsten af sig selv :-)

0401-1005 H:18 cm
